

FOR IMMEDIATE RELEASE

CAPITAL SUPPORT INCLUSION IN FINANCE ON WINDOWS

Capital Support Ltd is delighted to announce inclusion in the Microsoft recommended worldwide partner guide for the financial services sector.

Finance on Windows is the only official Microsoft partner guide, online resource and technology magazine, dedicated entirely to the financial services sector. The partner guide provides a single source of information about a select number of partners operating worldwide.

Only one hundred and forty companies make the partner guide, out of several hundred thousand IT solutions companies across the globe, Capital Support is delighted to be included.

Nigel Brooks, Director at Capital Support said:

"The financial services sector is particularly sensitive to the impacts of downtime, with the cost of a network outage running into tens or hundreds of thousands of pounds in lost business and productivity. Selecting a credible IT solutions provider who understands the specific needs of a financial services company can be challenging.

Over the last seven years, Capital Support has worked closely with hedge funds, private equity firms, and banking organisations, developing a niche expertise in meeting the needs of a financial organisation. Inclusion in the Finance on Windows partner guide is recognition of that experience"
